What is *K's Kids*[®] Parents' Support Center ?

The value of a toy is not only reflected in how fun it is, but the balance of fun and education. As a child grows up, he is continually learning. A top quality toy is one which integrates educational elements with fun elements, so that the child can learn and play at the same time.

Every K's Kids product is designed based on a child's specific learning needs. This support center is here to provide comprehensive after-sales support to parents who have purchased K's Kids products. It is also here to help parents to take full advantage of the educational elements of the products. By buying a K's Kids product, parents have at the same time purchased an individually and carefully designed learning system.

The K's Kids Parents' Support Center provides guidelines on how kids can make use of the toy to have fun and learn at the same time. These guidelines are based on children's age and developmental stages.

Bring a K's Kids toy home today...and begin your journey of fun learning!

Activity 4.4

Objective: Singing along

Method: Pat the ball until it plays the alphabet song. Teach and encourage your child to sing along to the music.

Lyrics:

A - B - C - D - E - F - G - H - I - J - K - L - M - N - O - P - Q -
R - S - T - U - V - W - X - Y and Z Now I know my A - B - C's
Next time won't you sing with me?

Activity 4.5

Objective: Group Game

Method: Play with two or more players. Sit in a circle and pass or throw the ball to the person next to you, so that the ball talks. For each round of counting or saying the alphabet, the ball will randomly play a cheering sound. Whoever is holding the ball as it cheers has to be punished. The punishment should be learning related. For example, singing the alphabet song, counting backwards from 10 to 1, saying three odd numbers, saying the vowels, or naming an animal that starts with the letter P etc. Through this game, children can play and learn at the same time.
